WPPL2120-B	Plan, Sheet 3 & 4	1	3. Hull 4. Hull and spar details
WPPL2120-C	Plan, Sheet 5 & 6	1	5. Rigging and sails 6. Rigging sections
WPPL2120	Parts List	1	

### **PLEASE NOTE :**

**ON SHEET 6 OF 6, DETAIL 6-E, THE TACKLE IS INCORRECT.  
THE SINGLE BECKET BLOCK SHOULD BE AT THE TOP OF THE TACKLE,  
NOT AT THE BOTTOM AS SHOWN,**

**Snatch block:**

A snatch block is shown on the after deck port side. This block is a lead block for the running backstay fall. There is no such block on the starboard side of the current ship. This is not clearly illustrated in the plans.

**Eyebolts:**

An eyebolt is shown under the fore aft crosstree and also on the sides of the mast caps. These eyebolts are not used with the current rig.

**Main Topmast:**

There is a sheave in the very top of the main topmast. This sheave is not used with the current rig. The cheek block on side of the mast is used for the gaff topsail halliard.

**Fore Topmast:**

The fore topmast has a cheek block at the very top. This is incorrectly located. Bring down to where the jib topsail halliard attaches and use the cheek block for the halliard fall.
